Re: Letter of Recommendation for Mikita Shylai

To Whom It May Concern:

I write to recommend Mikita Shylai for participation in your mentorship program. I have known and worked with Mikita for more than a year, and I believe he would be an excellent candidate for any organization looking to invest in talented and driven young people.

I first encountered Mikita on Freelancer.com while searching for software developers for a series of projects. Among the many candidates I evaluated, Mikita stood out. He was straightforward, honest in his assessments of what he could deliver, and willing to communicate openly about challenges rather than overpromising. These qualities are rarer than they should be in the freelancing world, and they made him someone I wanted to work with repeatedly.

Over the course of more than a year, I engaged Mikita on various software projects. He proved himself to be competent, reliable, and genuinely helpful. He approached problems methodically and delivered quality work. When issues arose, he addressed them directly rather than deflecting. Beyond his software abilities, I understand that Mikita has demonstrated talent in economics Olympiad competitions, which speaks to analytical rigor and intellectual curiosity that extend well beyond any single discipline.

In my assessment, Mikita is the kind of person who rewards investment. He is honest, capable, and motivated. I recommend him without reservation for your foundation's mentorship program or any other opportunity you may offer.

Please do not hesitate to contact me if you have any questions.

Respectfully,

David N. Brunk
